INTRODUCTION

Dr. Robert Bruce Banner, a top nuclear physicist, was caught in the blast from an exploding Gamma Bomb while trying to save his close friend Rick Jones. Having been exposed to a massive dose of Gamma radiation, Dr. Banner's genetic structure was inextricably altered. Now whenever he gets angry or excited, he mutates and becomes a huge, green monster with super-human strength — a monster that has come to be known as "The Incredible HULK."

THE STORY SO FAR

The HULK has been taken prisoner by members of The Pantheon — A team of Super Heroes sent on special tactical missions. Their leader, Agamemnon, has determined that the HULK must be shown that his powers can be used for the benefit of mankind.

WHAT DO THOSE THINGS ON THE SCREEN MEAN?

1. Life Meter

As the HULK battles an enemy, he will sustain damage. Keep an eye out for Life Boost power-ups located throughout the game to remain lean, mean and green.

2. Gamma Meter

This indicates how much extra power the HULK has stored for Special Moves. As long as the HULK has stored energy, you can perform any Special Move. Save energy to battle larger enemies.

3. Score

Tallies your progress.

4. Enemy Life Meter

Remaining energy for the area Boss.

5. Pieces of the Time Machine:

These are collected throughout the game and during the Future Imperfect stage.

PICK UPS

Life Boost

Restores partial life force. If you have full health, you will not be able to pick up another item.

Gamma Boost

Surges the HULK's stored Gamma energy level. As with the Life Boost, you cannot pick up additional boosters until you have less than maximum power.

Hint: Power up early on, battle the enemies, then return to the beginning and collect the boosters which are left before exiting a level.

Super Gamma

This will maxout the HULK's Gamma level, allowing you to perform unlimited Special Moves for a short while. When collected, your Gamma meter will flash.

Double Damage

Twice the damage inflicted upon enemies.

Emergency Team

The most powerful feature in the game. If you are lucky, you may find these hidden in the game. The Pantheon Emergency Team will assist you in a time of need. *Hint: Acting as smart bombs, they may be used to help you reach areas not previously accessible.*

There are four different members of The Pantheon that the HULK may call upon in various circumstances.

EMERGENCY TEAM

Ajax

He comes falling from the sky and charges in the direction that the HULK is facing when called. Ajax will barge his way through enemies, and even through locked doors.

Atalanta

She will fly around providing effective air support by shooting her flaming arrows at all enemies near the HULK.

Ulysses

He will appear on-screen and rapidly run in circles around the HULK providing protection and destructive assistance.

Hector

Temporarily stuns all enemies on-screen with his mace.

STAGE 1: THE MOUNT

As Paris and Ulysses play chicken with the doors to The Mount, they crash and set the HULK free. Now, the automatic defenses have activated and it is your job to defeat them and find Agamemnon.

The Mount consists of three specific areas:

- The Landing Bay
- Pantheon Battle Ground
- Ecosystem

Let's give a quick walk-through for the Landing Bay. The objective here is to locate the 6 elevator switches and exit the stage.

From the start — run right, smash the glass and press the wall switch. This will turn off the force field blocking your path. All force fields have switches! Next, go to the back wall. Here, between the glass walls is the 1st elevator switch. Pound the switch and the first arrow indicator will light up and raise the lift one notch.

Now, go up the stairs and to the left, here is the 2nd switch — hit it. Go down through the laser field and through the door. Head up and to the left for another force field switch. Jump over the railing and head down and left. There is the 3rd elevator switch. Travel up to find a door switch. Continue up to another door switch. Punch it and head left into the wall. Here is the 4th elevator switch and a door switch. Leave the room and continue up. Smash the glass and the robots for the 5th elevator switch. Head down and back into the room with the 4th elevator switch. Hit the door switch and return through the laser field. There should be a new area opened next to the 2nd elevator switch. Head inside to find the final elevator switch on the back wall. Leave the room and head right, fall off the ledge and ride the small elevator up to the exit. You've just completed Stage 1!

The Mount is defended by:

Hector

Atalanta

Ajax

Eco Droids

STAGE 2: THE SCOTTISH CASTLE

Piecemeal has taken hostages and must be stopped. Your job is to free these hostages and defeat Piecemeal.

- Main Entrance
- Underground Dungeon
- Piecemeal Main Hall

These levels are defended by:

Piecemeal

Mystic Monks

STAGE 3: TRAUMA AND LAZARUS

This dirty duo has managed to kidnap Atalanta and transport her to their secret frozen waste hideaway in the Antarctic. Lazarus has erected an Ozone Eliminator cannon in an ice cave. Your mission is to destroy the cannon and rescue Atalanta.

- Ice Flow
- Freon Cave
- Ozone Cannon

The ice worlds are protected by Trauma, Lazarus and their minions.

Trauma

Trauma's Troops

STAGE 4: THE U-FOES!

A team of enemies known as the U-FOES have broken into The Mount looking for Agamemnon. They have left utter destruction in their wake. Your mission is to track them down and defeat them once and for all.

- Destroyed Landing Bay
- Destroyed Ecosystem
- Agamemnon's Inner Sanctum

The invaders you will face are:

Ironclad

X-Ray

Vector

Vapor

FUTURE IMPERFECT: THE MAESTRO

After defeating The U-FOES, the HULK is suddenly transported to the future — an alternate reality.

The HULK has been brought here by an aged Rick Jones to help fight an evil, brutal ruler known as The Maestro.

As it turns out, The Maestro actually IS the HULK. This is the most difficult enemy since he knows your every move and has the HULK's strength and abilities.

Your objective is to activate the Time Machine and eliminate the scourge of The Maestro forever. In order for the Time Machine to be activated, you must collect all four of the inter-dimensional transit components.

Now, how to defeat Maestro?
